The pixel Lab Industrial Pack 2 for C4D (includes 25 industrial models, 4 complete 3D scenes, 10. Category:Libraries developed for the.NET Framework Category:Windows compression softwareQ: SQL query returning more rows than actually inserted I am new to MySQL and I am trying to return a number of results from a table of only one item (for my needs) using an inner join. The issue is that my query is returning more results than actually stored in the table. What I want is to return the entire record with the id that I am comparing it to, and for that I am using the following query `SELECT * FROM `item` WHERE `id`=3967` I am running it through PHP with the following code `$result = mysql_query("SELECT * FROM `item` WHERE `id`=3967") or die(mysql_error()); while($row = mysql_fetch_array($result)) { echo "" . $row['id']. "" . $row['name']. "" . $row['quality']. ""; }` and it works fine, but when I add the inner join I get more rows than actually in my database, can someone please explain what I am doing wrong? `SELECT * FROM item INNER JOIN item_price ON item.id=item_price.id WHERE id=3967` A: This would give you the same result as your query, but it would look cleaner: `SELECT * FROM item INNER JOIN item_price ON item.id = item_price.id WHERE item_price.id = 3967` Q: How can I print a variable's contents to the console while the code is running? If I have the following: `int x = 42;` How can I log the value of x to the console as my program is running? A: If you want to print a value during execution of a program use `System.out.println("x= "+x);` `System.out.println("x= "+x);` A: If the output is being displayed somewhere, it doesn't matter what you put in between it. But if the output is only being shown on the console, you need to tell

I'm extremely excited to introduce The Pixel Lab "Industrial Pack!" We've created a huge pack with 25 industrial models, 2 full 3D environments, . Industrial Pack For C4D.zip, 300.93 MB. Industrial Pack 2 For C4D.zip, 1.06 GB. Industrial Pack 3 For C4D.zip, 7.16 GB. Industrial Pack 2 For C4D The Pixel Lab Mega Pack-Cinema 4D.part02. Industrial Pack 3 For C4D.rar The Pixel Lab Industrial Pack 2 For Cinema4D.rar This product is compatible with Cinema 4D version R19+. The Pixel Lab Mega Pack-Cinema 4D.part01.
