having a columnar resonance portion and a columnar microphone array. 2. Description of the Related Art In the related art, a microphone has been used in a microphone array (also referred to as a microphone array microphone or an audio speaker array) which has multiple microphones arranged in a columnar fashion. For example, when the microphone is used in a vehicle, the microphone array is fixed to a windshield or the like, and the microphones can receive a sound from the outside and form a sound image in a direction of the vehicle. Japanese Unexamined Patent

Application Publication No. 2007-126797 discloses a microphone array microphone which can be used as a microphone array. In the microphone array, multiple microphones which are arranged in a columnar fashion are disposed on a support surface of a sheet-like material, and a portion thereof is coated with a resin to have a cylindrical shape. A columnar resonance portion is formed in the portion.[Duodenal endometriosis--clinical and therapeutic aspects]. Endometriosis is a disease in which endometrial glands, stroma and mucosa derived from the uterine endometrium, located ectopically and outside of the uterine cavity, endometriosis by the adhesion of the basal layer of the glands to the intestinal mucosa. The most frequent localization is in the ileum and the cecum. Treatment is based on a conservative approach (antifibrinolytics, corticosteroids and GnRHa). Surgical treatment is only indicated in case of intestinal obstruction. Different complications such as peritonitis 2d92ce491b
