What are you looking for? A major national marine centre, the Centre d'Etude et de Recherche sur la Mer (CERMES) is a research unit under the authority of the French Ministry of Ecology, Sustainable Development and Energy. CERMES is one of the eight specialized research centres that make up the French Research and Innovation Network. It has its own research staff, laboratories, workshops, meeting rooms, a bar, a restaurant, and a large office building. CERMES staff are scientific researchers from the different French research institutions. A number of them also take part in commercial activities and some are involved in the organisation of meetings and conferences. Visitors are also welcome All visitors are welcome to CERMES! You can visit the Research and Innovation Centre (Aix-Marseille Université), the CERMES workshops, the laboratory of the Centre for Fisheries and Aquaculture Development and the offices of the director. To enjoy the wonders of the sea, you can watch presentations, take part in workshops or go for a "walk on the beach". A problem often encountered by watercraft users is the difficulty in locating the watercraft in a lake, for example, when the watercraft is buried in water or surrounded by vegetation. A large lake can have a depth of several hundred feet, which can extend over a wide area 2d92ce491b
