LogEdit LogEdit LogEditj): u32 = i.to\_big\_int().unwrap() .to\_string() .map\_err(|\_| "Could not convert to string"?; Ok(DisplayItem::DisplayItem("Display item", js\_item.display\_item)) } } Err(err) => { return Box::new(ReturnStatusMessage::RetStatus( StatusMessage::ImplementError, ErrorKind::NotImplementedError.into(), )); }

### What's New in the LogEdit?

- Copy-Paste from zMUD - Import/Export to ANSI, HTML, RTF and Text. - Supports Regular Expression Filters: - Remove Prompts - Replace Prompts - Organize, sort and search logs. -

---

Select-All - Captions - Encoding - Safe to Use - Compress Log - Sticky Filter - Keeps it's position when the whole window is scrolled. MTGText - Simple Text Editor with ANSI Colors

MTGText is intended to be a simple text editor, which supports ANSI color codes (colort.txt) like what you see in Mud Client, zMUD, etc. It allows you to edit your text files with syntax like

The syntax for coloring will appear as green text, and the text itself will appear in ANSI colors. Any edits to your.txt file are completely saved to your drive, allowing you to revert the file to any previous state should something go wrong. MTGText

Description: - Simple: Easy to use. - Supports ANSI Colors. - Supports Double Sided Printing. - Supports copy, move, delete and loading saved text files. - Syntax supported: - #define - Print the current number you have defined, of course. - +c #define Defines an escape sequence to use for a color. - Background Color, print characters and double quotes on a specific color. - Block/Background Color - Formatting - Input - Print/scroll - +b Local Title, +k Global title - +e Scroll - +f Index - +i First line is \$INDEX, +t is \$TITLE - -f Index - -i First line is \$INDEX, -t is \$TITLE - -n Number of lines to print - -m Text out of bounds jumps to the beginning of the file. - -r Select a line and print/scroll/edit. - -s All but first line are printed on the second line. - -v Toggle the invisible text. - -w Invisible text on the 2nd line. - -x Flag for the next line to be the second line. - Lines, words, or parts of the phrase that have no text will have a number instead. - Filename or Path - Multiple Filename/Path

---
