EA SPORTS FIFA is the world's most popular sports video game series. With over 100 million FIFA and FIFA Street combined sales and more than a decade of gaming innovation, EA SPORTS takes the leap from athletes to athletes on all levels of the game: Gameplay is fun and fast. Simulate realistic moves, adaptable tactics and fluid transitions. Play on-the-ball with fast cuts and sprints. Make unpredictable, off-the-ball runs. Play along with the crowd with the best chants, celebrations and taunts. Control the match to score the goals, defend against the opposition, manage your team, celebrate and win. Plus, for the first time, create, share and take control of your own fantasy team, compete in championships and go head-to-head against your friends in the new Player Duel feature. And, for the first time in FIFA history, players can create their own player name for use on the field. For example, I have a Test-Job domain, and I wish to create a relationship in Neo4j from this domain to two nodes, namely Assignment and EndTime. In other words, I wish to create a single test case that has the following relationships: Test-Job(Assignment_node_ID, Assignment_node_name, EndTime_node_ID, EndTime_node_name) A: You can do it with cypher like this:

What's new:

- **New Player Movements** - Powered by the latest 'HyperMotion Technology,' three new ways to control your club's stars have been added: **3D AI-controlled Skill Shots** which let players improvise and create great goals; **Sprint**, to convey speed, acceleration and decision-making; **Envelope**, which brings more realistic decision-making, improvisation and risk-taking around the touchlines.
- **Improved Player Traits and Hindering Passes** - Whether you are controlling a throw-in or dribbling through pressure - the improved Player Traits and Hindering Passes will help ensure that your skills display in all your subtle ways.

New Formation Rules in Brazil

- **Tactical formations have moved to Brazil**, supporting a more offensive style and emphasis on playing out from the back.
- **Players can now be deployed in a versatile Diamond midfield or Wide defensive striker with the Possession Trait.**
- **FIFA Ultimate Team has expanded to ten new markets**, including the latest South American kits, and offers new club-building market for South America.
- **Vast improvements to Brazil's player ratings.**

Additional Features in FIFA 22:

- **A new set of Player Ratings based on expected performance within 23 key positions.** These attributes work in tandem with FIFA Interactive Football rating modifiers to more precisely reflect player performance in every situation.
- **New Crouch Trait:** A new Crouch skill that lets defenders misdirect players, taking clearances and crosses into their own box and doubling the chance of a second shot.
- **New Catenaccio Defensive Trait.** The Catenaccio Trait empowers your defense to block out opposition attacks.
- **New Intercept Trait:** A new defensive skill that helps players intercept attackers. Press the First Touch button in possession to use the Intercept Trait.
- **New Second Opinion system**, which offers a new offside decision based on friendly AI behaviours and allows penalty kicks to be scored from outside the box if certain rules are met.
